

DECLARATION OF CONFORMITY - PPWR_ENG_03_26

Packaging and Packaging Waste Regulation (EU) 2025/40

DESCRIZIONE

PE bags from 540 mm foil reels for bagging machine

Code: 1350.111.01.00

PPWR REGULATORY COMPLIANCE

The above mentioned packaging is not intended for contact with food products and complies with Regulation (EU) 2025/40.

In particular, based on the declarations and technical information received from its Suppliers, COMER certifies compliance with the following applicable essential requirements:

Article 5: Requirements regarding substances of concern

- Heavy metals: the sum of concentration of lead, cadmium, mercury, and hexavalent chromium resulting from the substances present in the packaging or packaging components does not exceed the value of 100 mg/kg.

Article 15: Labelling information

Regarding environmental labeling, the Company continues to apply current national regulations and operational guidelines provided by the competent authorities, including the criteria for identifying packaging materials set out in Italian legislation.

The technical documentation required by the PPWR Regulation in support of this declaration is digitally preserved by the COMER Integrated Management System Manager.
